

## KUOPIO

Site visit April 26th 2013  
12:00 – 13:00

Only one contestant registered to the Kuopio site visit so we decided not to have the full presentation that we had prepared. Instead, Planning Director Tapio Räsänen and City Planning Architect Iivo Vänskä from the City of Kuopio took a walk around the site with the participant and presented the area.

**Q: What is the use of the brick building next to the bowling alley?**

A: It is an art warehouse and will remain in that use also in the future.
