

Report from site visit to Bærum.

April 25 2013

The site visit started with a presentation made by Kari Hjerman, Terje Hansen and Pedro Ardila from Bærum municipality at the administration building of the municipality. Afterwards attending teams were given a tour of the study site and the project site. The following topics were discussed where information not mentioned in the program was given:

Traffic concept for Sandvika.

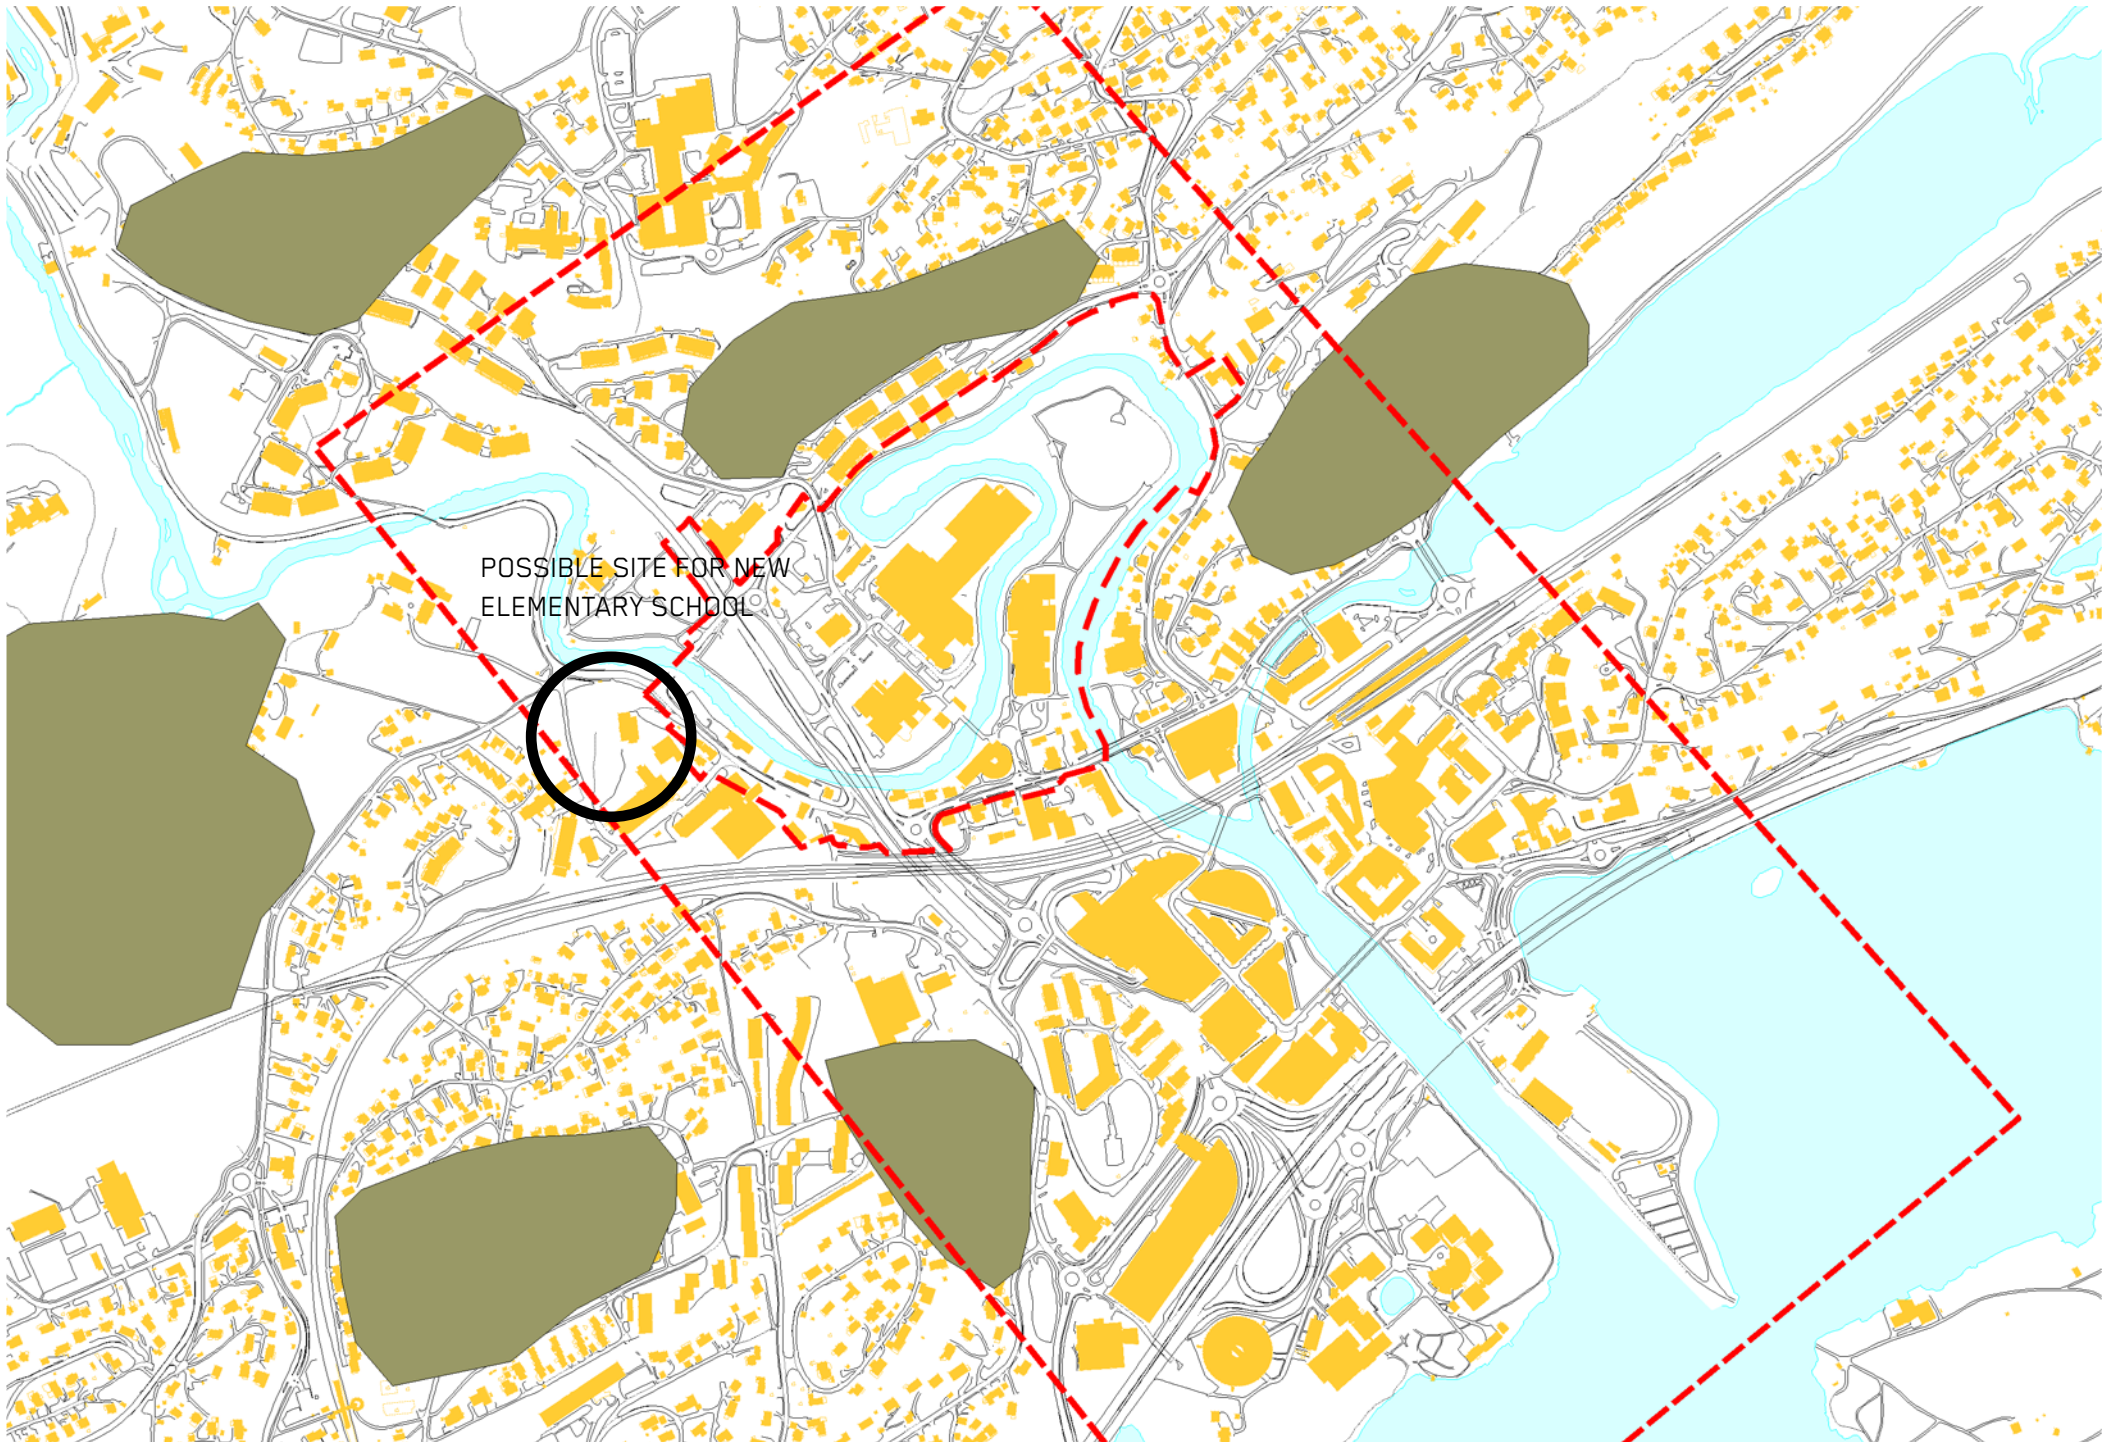

Information was given about the overall traffic concept for Sandvika.

See attached map.

Elementary school next to project site.

Information was given about a possible localization of a new elementary school in area north-west of the project site. Although not determined, competitors should have this in mind when making the design for the project site.

See attached map.

POSSIBLE SITE FOR NEW
ELEMENTARY SCHOOL
