PUBLICITY FOR THE EUROSPAN 18 COMPETITION

Advertisement for EUROSPAN 18 in the official publication is made through B.O.E. (State Official Journal) and the regional official publications to which the sites belong.

Information to all the architects through the 19 local Orders of architects and through the Consejo Superior de los Colegios de Arquitectos de España Web

An advertisement is published in a national newspaper some weeks before the registration deadline.

The aim of EUROSPAN Spain is to implement the projects chosen by EUROSPAN 18 national jury.

In order to facilitate contracting of the proposals by public administrations participating in EUROSPAN Spain as the core of the competition, the Ministry of Housing and Urban Agenda launches the Competition in Spain, establishing its Rules by a bidding document that shall comply with the procedure of Juried Design Competitions as provided in section 183 et seq of the LCSP, and publishing the competition in the State Procurement Platform (<https://contrataciondelestado.es>). This will ensure compliance with the conditions established in the EUROSPAN Internal Procedures and in the aforementioned Law.

Therefore, in case of entering any of the Spanish sites, it is important to get familiar with the “Rules of the EUROSPAN 18 Juried Design Competition” .
